\$4.3 billion...That's how
much the government
recovered in 2013.*

Is your revenue safe?

With recoveries continuing to climb every year, the need to protect your hospital's revenue is greater than ever.

MedeAnalytics' Compliance solution can help you uncover areas of vulnerability through evidence-based insight. With a powerful rules engine and sophisticated analytics, you can do more than react to audits—you can proactively prevent them. So stop guessing and reacting. Start predicting outcomes, finding answers, and taking action.

- Quadruple self-audits with no staff increase
- Proactively reduce take-back risk by 50% or more
- Efficiently manage the audit process
