

## Boost Collections and Patient Satisfaction

With an integrated, web-based workflow solution, you can boost patient registration efficiency, improve patient satisfaction, and boost collections at the front end of the revenue cycle. Use MedeAnalytics Patient Access to generate patient estimates, verify insurance eligibility, validate patient demographics, route to financial counseling, and more.

*View patient access activity at a glance*

### With Patient Access Intelligence and Workflows You Can:

- Create patient estimates to boost front-end collections
- Reduce bad debt with insurance and address verification
- Improve patient satisfaction by eliminating financial surprises
- Eliminate administrative denials and write-offs with real-time error detection
- Automatically refer low-income patients to financial counseling
- Monitor workflows to ensure employee accountability
- Track patient access metrics with benchmarks and alerts

#### PATIENT ACCESS

##### / WHO IS IT FOR? /

CEOs, CFOs and patient registrars of hospitals and healthcare organizations

##### / WHAT DOES IT DO? /

Improves workflows and data access to streamline patient registration and financial clearance

##### / WHY DO YOU NEED IT? /

- Boost point-of-service collections and reduce bad debt
- Improve patient satisfaction
- Drive patient access efficiency and productivity
- Ensure accuracy in data collection

##### / HOW DOES IT WORK? /

Predictive modeling, customized business rules, and third-party data sources combine to create an integrated, web-based workflow solution

### Boost Point-of-Service Collections

With an intuitive workflow solution, you can give your registrars the tools they need to improve collections at the front end of the revenue cycle.

- Patient estimates (from contract rules, pre-registration data, historical charges, and co-pay and deductible data)
- Eligibility and benefits verification
- Charity and eligibility screening
- Financial counseling workflow

*Simplify patient access with color-coded workflows*

### Enhance Patient Registration Efficiency

Streamline the patient access process with web-based, color-coded workflows that identify which tasks need attention:

- Insurance eligibility confirmation
- Patient demographic data verification
- Patient estimate creation
- Financial counseling
- Error detection and resolution with our real-time rules engine

### Improve Patient Satisfaction

People have a choice as to where they receive care. Ensure a positive experience with:

- Streamlined, efficient patient access process
- Patient estimates that eliminate financial surprises

### Patient Access with a Consultative Touch

You'll benefit from the consultative approach of our experienced performance management team who will tailor the technology to your needs, manage your implementation with ease, and ensure you derive ongoing value from your investment.

#### SUCCESS STORY

After implementing Patient Access in its 19 hospitals, Adventist Health increased POS collections by 20 percent.

"It's extremely easy to use and intuitive. It's just a fabulous leap in technology."

**Gary Friestad**  
Adventist Health
